

WWWC Covid-19 Safety Statement (revised)

Women's Walk With Christ is deeply concerned with the health and safety of all women who attend a WWWC event/Weekend...either as staff or an attendee. We are committed to providing safety for all and continue to have some precautionary measures in place based on CDC and state guidelines. We continue to monitor Covid-19 information very closely to provide the safest environment for everyone.

Your cooperation and discipline are crucial and will help us maintain a safe environment for all.

Here are a few items to consider when planning to attend a WWWC event/Weekend:

- We ask that you be vigilant of your surroundings and take the necessary precautions to keep yourself (and others) safe and healthy.
- Masks are recommended, but each woman can decide for herself. If the Weekend's state/county or the CDC mandates masks, then they will need to be worn throughout the Weekend. As always, we encourage you to do whatever you need to do to feel most comfortable. Disposable face masks will be available should you need one.
- Your temperature will be taken every day. (A temperature between 97.7–99.5 °F is considered normal.)
- Please wash your hands regularly and thoroughly (20 seconds or longer).
- We will provide hand sanitizer and ask that you use it at regular intervals.
- Avoid touching your face, eyes or mouth.
- A social distance of 3-6 ft will be maintained. You will be assigned to a small group who you will be with for the whole Weekend to keep interactions more contained.
- You will eat as a small group with social distancing in place.
- We will make every effort to give you your own sleeping room on a Weekend.

Safety of shared surfaces for the event/Weekend:

- Meeting rooms will be sanitized throughout the day.
- Every meeting room will have hand sanitizers.
- Wash your hands before and after using any common areas/articles.
- Wash your hands before and after each meals.
- In your small group, keep your items to yourself.

This statement is **only an overview** of WWWC procedures and guidelines for Covid-19 safety on events/Weekends. Please stay home if you're feeling unwell.
