Closest airport is **Philadelphia International Airport (PHL)**: roughly 20 miles (about 40 minute drive with traffic)

Closest town (with food) is Paoli, PA.

- There are 3 restaurants in Paoli Plaza, located at North Valley Road and Lancaster Avenue (Rt. 30), a short distance from the train station.
 - Nudy's, located at 31 West Lancaster Avenue (in front of the Plaza); it is **only open until 4PM**, but for anyone coming in early, their food is excellent.
 - Skinny Pizza (35 W. Lancaster Avenue) offers salad, soup and pizza. It's reasonably priced, and the reviews say it's good.
 - TJ's Restaurant and Drinkery, located at 35 Paoli Plaza. Food is reasonably priced and quite good.

By TRAIN from the Philadelphia International Airport to Paoli, PA (just outside Malvern):

****We will pick up those who need transportation from Paoli to the retreat center. If you are planning to arrive by train**, please let Dee or Nancy know when you make your travel plans, so that they can have an adequate number of seats available in the vehicles used to pick up in Paoli.

- Following the signs to "Baggage Claim", you will be on a connecting walkway that goes over train tracks. Watch for signs for SEPTA Regional Rail trains to Center City Philadelphia. The sign will take you down an escalator or stairs to a train platform. Just before you go through the glass door to the platform there is a ticket vending machine. There is usually an attendant nearby in a fluorescent yellow vest who can help with the machine should it be difficult to understand. The airport is the end of the line, however there are 4 airport stops: Terminal A, Terminal B, Terminals C & D, and Terminals E & F. There is no way to go far in the wrong direction as each train coming through goes to the last stop and very shortly turns around to go back toward Center City. The side of the train should

say “_____ via Center City” as various trains have different end locations, but all pass through Center City. Your end location is Paoli. If the train you board says it is going to Paoli, then just stay on for the whole trip.

- If not, get off at 30th Street Station, which is one stop past University City. You will go downstairs from the train platform and look at the board for “Paoli/Thorndale line” and the track number/ time leaving. There is a customer service person in that corridor that is available if you need help or information. Proceed back up the stairs or escalator to the platform indicated for the Paoli line. Make sure before you get on, that the sign on the side of the train says Paoli or Thorndale.
- **Please note:** Get a ticket from airport to center city, and a second from center city to Paoli. You should be prepared to pay less than \$20 for the complete train ride. If you plan to use the train to return to the airport, please buy a duplicate of your ticket purchase for use on Sunday, as the ticket counter will be closed and you will need cash and pay a surcharge on the train. Credit cards are also able to be used in the vending machines.
- If you experience any difficulty that cannot be solved by talking to a customer service person in your journey, Nancy Moore (215-284-4071) and Dee Beiter (484-614-0654) will be happy to assist you if you call their cell phone as listed. **Let us know by text to either one of these cell numbers when you arrive in Paoli.** This will help us send the correct number of cars for pickup when the weekend is starting.
- Once in Paoli, go to the “Inbound” or opposite side of the tracks from where you got off. Please be prepared to find some dinner before we pick you up to take you to the retreat center, as there will be no dinner provided before the weekend begins. Paoli provides a number of places in a short walking distance to get coffee, food, or kill time before arriving to begin the weekend.
- We will pick up those who need transportation from Paoli to the retreat center. Meet in front of TJ's Restaurant & Drinkery at 4:30 PM, as there is a fair amount of room in that parking lot, and Dee and Nancy will text the vehicle description(s) so you'll know what kind of car to look for.
